Finland's shipbuilders are the winners of the month. Congratulations!

MAIN GOALS TO ACHIEVE IN FEBRUARY

It is planned to produce 390 tons of metal structures for objects that are under construction in Kaliningrad, Lithuania, Latvia, Finland and the Republic of Belarus, as well as 410 tons for the shipbuilding sector in January.

The anticipated volume of works for December for all the "Litana" Group of companies amounts 37200 hours.

Construction works of wine-cognac and drug (factory manufacturing medicine) factories will be carried out in Kaliningrad.

Building works of the warehouse will be continued in Tombov.

Warehouse - refrigerator and workshop of wood treatment construction works will be continued and construction works of the factory manufacturing wooden products will start in Gusev in January.

Construction works of the supermarket, the area - 3700 m², as well as of the household supermarket, 7800 m² will be carried out in Belarus.

Constructions of a depot for repair of locomotives, 1780 m² will be started in Finland.

THE GROUP OF COMPANIES “LITANA” ENTERED INTO THE MARKET OF GEORGIA

Manager of the projects Vladimir Boiko (Lithuania)

On the 21st of December, 2009 the group of companies “Litana” has concluded the contract of construction works of a market hangar and slaughterhouse in Tbilisi,

Georgia. Implementation of the project, design and manufacture of metal structures as well as supply of all the materials will be carried out under the contract conditions. The area of the market hangar is 4000m² and 2000 m² - of slaughterhouse.

Designing works have started on the second week of January. Great importance is paid to the designing works. Although designs of the buildings are not complicated, the environment of exploitation is unusual. The construction works will be carried out in the seismic active zone, where the possibility

of earthquakes is great. That is why designers should analyze the situation thoroughly as they bear high responsibility.

It is anticipated to finish the designing works until the end of February and to carry the manufactured metal structures by rail to Georgia in March. Specialists of the group “Litana” will control the assembling of metal structures, but the local builders will carry out the assembling works. Manager of the projects Vladimir Boiko coordinates this project from the very beginning.

THE CONTRACT SIGNED IN LATVIA

On the 21st of January, 2010 the group of companies “Litana” signed the contract on designing of a printing-house in Riga, Latvia. At the moment the construction of it is the subject of negotiations. Commercial director

of SIA “Litana-Latvia” Sergey Prodanuks and commercial manager Eduard Malinin represent the company “Litana” in negotiations with customer.

THE GROUP OF COMPANIES “LITANA” JOINED THE INTERREGIONAL ORGANIZATION – “ASSOCIATION OF ARCHITECTURE AND DESIGN COMPANIES”

In January 2010 the group of companies “Litana” joined the “Interregional organization - association of architecture and design companies”. Membership in this organization has become obligatory for the building companies that impact

on the safety of built objects, since the 1st of January, 2010. It was necessary to become a member of the organization and to get permission for designing works so that the group of companies “Litana” could execute designing activity.

THE FINLAND’S BUILDERS ACHIEVED THE BEST RESULTS IN 2009

Commercial director and deputy of “Litana- Scandinavia” director - Silva Stepanenko

According to results of the performed plans and output of the group “Litana” during 2009 period, Finland’s builders are the leaders among the company’s departments. Shipbuilders in Finland were the leaders two years in turn – in 2008 and in 2007. This year the builders overcame the shipbuilders.

However, finding orders for building lies under responsibility of the Commercial department. There were few factors that helped Finland’s shipbuilders to win in 2009. First of all the right person was appointed as the head of commercial department in Finland. Silva Stepanenko went to Finland as

a deputy of “Litana- Scandinavia” director in December, 2009. Since Silva proved her competence while working in headquarters of the Lithuanian office, she was trusted to cope with great tasks in Finland. The group “Litana” became stronger in a building market of Finland within the 2009.

High results were gained thanks to the right marketing strategy and strong team. A lot of commercial offers and estimates were prepared as well as negotiations carried out, to prove the company “Litana” offers its customers various motions for executing projects.

Employees of "Litana Scandinavia"

The group of companies "Litana" worked as sub-contractor in many objects in Finland: roof repair in the municipality of Turku; manufacture and assembling of metal constructions in the supermarket in Turku; assembling of outer wall panel for a hospital in Helsinki; manufacture and assembling of metal constructions also assembling of load bearing sheet in a logistics centre in Turku; manufacture and supply of metal structures for a public welfare centre in Tarvasjoen; manufacture and assembling of metal constructions for a workshop in Joensuu; manufacture and assembling of metal constructions also assembling of load bearing sheet for an energy (city) park in Ussikaupunki; works of manufacturing and installation of metal structures, installation of wooden structures and load bearing sheet for a parking place in Vanta.

Commercial manager Seppo Freeman

Managers of projects Aleksandr Hokkanen and Aleksey Jeremin

Professional employees have helped to co-ordinate works on the given objects. Commercial director Silva Stepanenko successfully selected the employees for commercial department: managers of projects - Aleksandr Hokkanen and Aleksey Jeremin, commercial managers – Aleksandr Demidov and Seppo Freeman, assistant of manager

Inga Rusi. The construction director Salvijus Stankus supervised construction works in Finland as well.

At the moment commercial department negotiates about larger objects than were last year, since the group "Litana" is already known in Finland's market.

Shipbuilders in Finland

Litana-Belorussia

Jelena Volskaya started to work as a chief accountant on the 2nd February, 2010.

Aleksey Firsov started to work as an engineer of the production-technical department on the 19th January, 2010.

Litana –Russia

Sergey Rukin started to work as a chief accountant on the 11th January, 2010.

SAINT VALENTINE'S DAY IN THE WORLD

Saint Valentine's Day is an annual holiday held on February 14 celebrating love and affection between intimate companions. It is traditionally a day on which lovers express their love for each other by presenting flowers, offering confectionery, and sending greeting cards (known as «valentines»). Valentine's Day symbols include the heart-shaped outline, doves, and the figure of the winged Cupid. There are countries with their own particular traditions of Valentine's Day.

Traditionally sweets and especially chocolates are presented in Japan. The Valentine's Day reminds the 8th of March for men in Japan, since men get more presents than women do.

Passionate Frenchmen present jewel, while romantic Danes send to loved ones white dried flowers.

Unmarried British girls get up early before sunrise on the Valentine's Day, it is believed the first man she sees will be

her fiancé.

Saudi Arabia is the only country where this holiday is officially forbidden, even high pines are applied.

Active orthodox believers support interdiction of the holiday in Russia.

The "Mass kisses" became popular in Belorussia. Couples gather in stadiums, bridges, parks and kiss all together at the same time under command.

Various festivals are held in Australia, flowers and greeting cards are being presented.

The devotion of bonfires to the son of Odino – Vali (Vili) is a tradition of Valentine's Day in Iceland. Nevertheless the holiday is related with romance and love as everywhere in the world.

In Italy Valentine's Day is a holiday of beloved couples. Italians do not present "Valentines" to the members of family or friends, unlike in many countries people do.

Unusual tradition of Valentine's Day is in Canada; girls can declare their love or make a proposal to marry for the man they liked.

People give each other sweets, toys and other the heart-shaped gifts on the 14th February in Finland as in many other countries.

Congratulations upon Jubilee! In February jubilees celebrate:

The 60 jubilee celebrates **Shamil Ahmedzianov** – engineer for quality

The 55 jubilee celebrate: **Oleksandr Voloshyn** – foreman

Liudmila Caregorodceva – engineer – designer

The 50 jubilee celebrate: **Vladimir Shushlebin** –welder

Sergey Gerasimov – pipe fitter

The 40 jubilee celebrates **Pavel Dubinin** -fitter of metal structures

The 35 jubilee celebrate: **Aleksandr Vikulov** – pipe fitter

Odeta Budrike – chief accountant
